To Whom It May Concern:

We currently are only using 30% of our parking capacity during the week. The new building will not be housing any new positions, simply relocating them on our campus.

This letter is to certify that we at Faith Baptist Bible College and Theological Seminary understand that if parking becomes an issue on our campus with the addition of a new office building, that the city may require additional parking space to be provided.

If this situation were to occur, we as a school are willing to provide the additional parking required.

Sincerely,

  
Jim Tillotson  
President
