

CR Signs, on behalf of Green Acres Storage at 225 NW Autumn Crest Dr, is seeking permission to install an illuminated sign on the north of the building, facing a residential area. Due to commercial expansion in the area, we believe the illumination is necessary to attract attention to the business among many competing storefronts. The proposed illumination is white LED on standard channel letters, set back almost 100 feet from the right of way. We believe this will not cause undue distraction to motorists or residents, while still attracting necessary attention to the business.

Sincerely,

Lee Casebolt  
Project Manager
